# possible scenarios

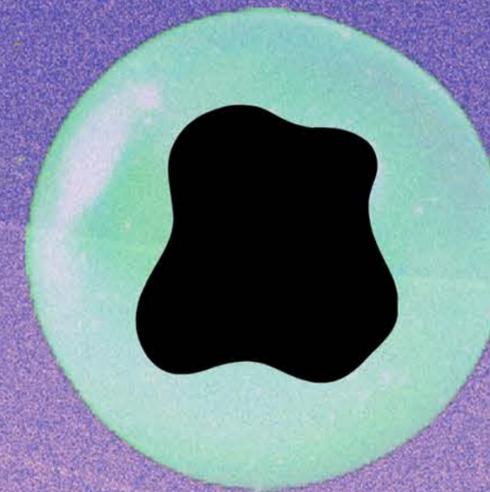

We move to 4001 Berri and we have more intertwined spaces

We move to 4001 Berri and we have more separate spaces

We don't move to 4001 Berri, but we keep looking for a new place

We stay here and chill

# survey results

- most in favour of moving and of 4001 Berri
- where do we feel comfortable?
- how does it feel to share a building with orgs that are more white adjacent? agency?
- can we continue to prioritize making space for BIPOC and not get watered down?
- what is our relationship to neighborhood and place?

questions?

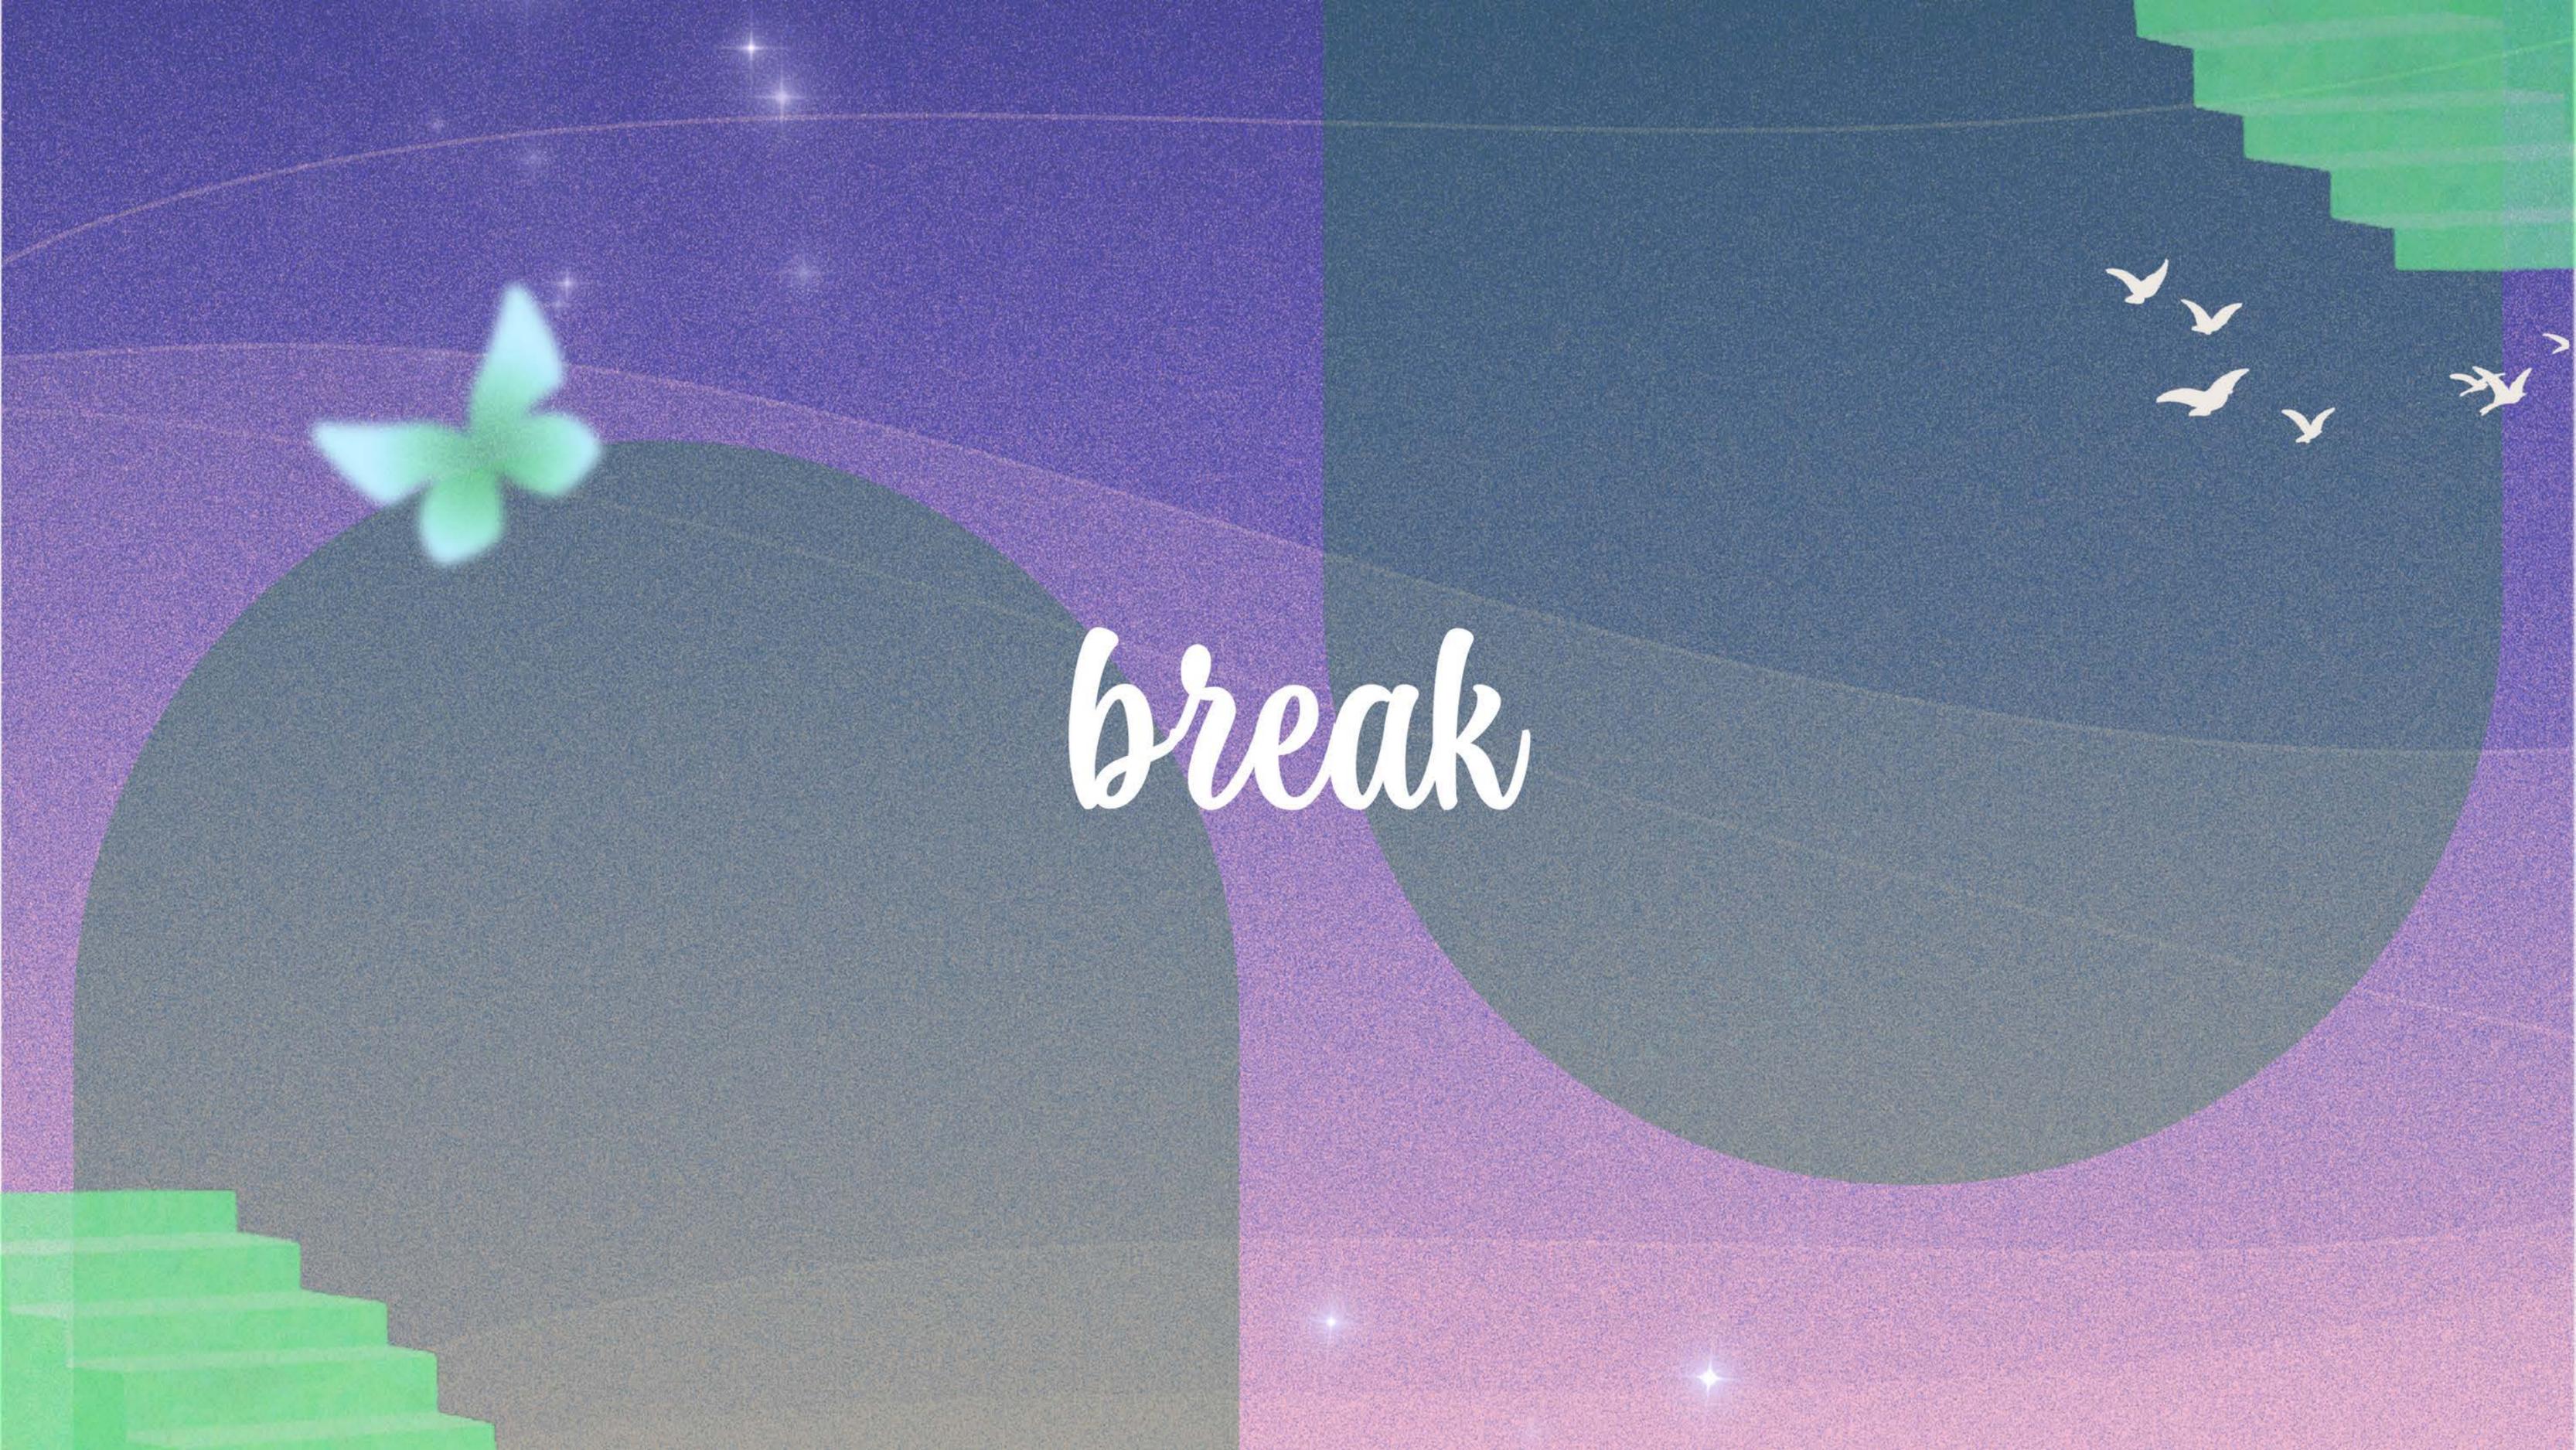

do the partnerships and location align with our basis of unity?
